

INTRODUCING THE 45" WIDE FRAMELESS SHOWER DOOR

By Alluring Glass – Where Elegance Meets Innovation

A Bold New Standard

For decades, 36" was considered the industry limit for shower door width. Not anymore. Alluring Glass is proud to offer a **45" wide frameless shower door** – setting a new benchmark in both design and function.

Why It Matters

- **More Space:** Ample entry for comfort, accessibility, and luxury.
- **Modern Aesthetic:** A sleek, expansive look with no compromise on style.
- **Enhanced Experience:** Ideal for spa-like environments and high-end bathrooms.

Important Note for Contractors & Builders

To support this innovation, **reinforced framing is essential** on both walls. Once that's in place – **we'll handle the rest.**
